AND YOUR ENVIRONMENT
IS **SAFE**

Vision and strategy
2025-2030

VALUES

The background of the slide is a photograph of an industrial facility. In the foreground, there is a large, complex piece of machinery with many pipes and valves, illuminated by warm, yellowish lights. In the middle ground, two workers wearing blue uniforms and yellow hard hats are standing and talking. One worker is holding a tablet. The background shows more industrial structures and a ceiling with recessed lights. The entire image is overlaid with several thick, diagonal green stripes that run from the top right towards the bottom left.

Responsibility, quality, reliability,
safety, courage and staff well-
being

MISSION

And your environment is safe

VOODESTIA 1981 • DETECTOR • JUHTA YMPÄRISTÖISÖI OLSI TURVALLINEN •

A close-up photograph of a person wearing a bright yellow safety vest over a blue and white striped shirt. They are wearing black work gloves and are focused on drawing or marking a blueprint with a black pen. The background is slightly blurred, showing other people in similar safety gear.

VISION

Worry-free safety

FOUNDATION OF OUR STRATEGY

Skilled, trained and well-being personnel

Our work protects people, property and the environment. We want every employee to feel that their work is meaningful.

We are building an open and encouraging work community, supporting continuous learning and taking care of the balance between work and free time.

Partners and collaboration

We are building long-term cooperation with our partners. With our partner network, we can respond more comprehensively to customer needs and create a better service experience.

Responsibility and communication

Responsibility guides our daily operations. We are building a business based on sustainable development principles and communicate transparently about our actions. We are developing a responsibility strategy to support long-term growth.

Understanding our customers

Understanding our customers' everyday operations is at the heart of everything. We develop solutions in close collaboration with customers and respond to their evolving needs in a sustainable and safe way.

AI and remote monitoring

AI and remote monitoring bring predictability, efficiency and productivity. We use them as part of our operations and customer solutions. Information security is a key part of the whole.

International growth

We are expanding our operations in the Nordics through active sales and partnerships. Our first target country is Sweden. We provide ecological and reliable safety solutions that bring predictability to our customers' operations.
